

IMPORTANT SAFETY INSTRUCTIONS

For your own safety please read the following important safety instructions carefully before attempting to connect this unit to the mains power supply. They will also enable you to get the best performance from and prolong the life of the unit:

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use apparatus near water.
6. Clean only with a dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8. Do not install near any heat sources (such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat).
9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding pin. If your outlet does not fit the plug, consult an electrician for replacement of the outlet.
10. Protect the power cord from being walked on or pinched, particularly at plug, convenience receptacles and the point where they exit from the apparatus.
11. Only use attachments recommended by the manufacturer.
12. Use with only the chart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus.
13. When a cart is used, caution when moving the cart/apparatus combination to avoid injury from a fall.
14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug having been damaged, liquid has been spilled or objects have fallen into the apparatus; the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

- WARNING :**
- Do not place the unit in an enclosed space; if you wish to place the unit on a shelf, use the top shelf to allow maximum air flow. This will prevent overheating of the unit and damage to the internal components.
 - To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture. The unit must not be used near water or where it could become wet. Do not use this unit where vapors such as vases, shall be placed on the unit.
 - Setze das Gerät nicht auf einem abgeschlossenen Bereich. Wenn Sie das Gerät auf einer Seite stellen möchten, verhindern Sie das durch einen Tropfen oder anderen wiederkehrenden Wassereintritt. Die Lüftungsöffnungen müssen nicht geschlossen werden.
 - Um das Risiko von Feuer oder Stromschlag zu verringern, setzen Sie das Gerät gegen Regen noch Feuchtigkeit aus.
 - Das Gerät darf nicht auf einem Tropfen oder anderen wiederkehrenden Wassereintritt stehen. Die Lüftungsöffnungen müssen nicht geschlossen werden.
 - Das Gerät muss so aufgestellt sein, dass ein Entfernen des Netzsteckers aus der Steckdose (oder vom Rückwandigen Netzverteiler) jederzeit möglich ist. Wenn der Netzstecker zum Trennen der Stromversorgung verwendet wird, muss dieser entfernt werden.
 - Informationen zur Elektrik und Sicherheitshinweise entnehmen Sie bitte den Angaben auf der Rückwand, bevor Sie das Gerät verwenden.
 - Nur das mitgelieferte Netzkabel verwenden.
 - Verwendung des Gerätes in tropischen Klimazonen (Das Gerät sollte maximal bei einer Umgebungstemperatur von 45 Grad verwendet werden).

- NOTICE :**
- Do not place the unit in an enclosed space; if you wish to place the unit on a shelf, use the top shelf to allow maximum air flow. This will prevent overheating of the unit and damage to the internal components.
 - To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture. The unit must not be used near water or where it could become wet.
 - Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding pin. If your outlet does not fit the plug, consult an electrician for replacement of the outlet.
 - When a cart is used, caution when moving the cart/apparatus combination to avoid injury from a fall.
 - Protect the power cord from being walked on or pinched, particularly at plug, convenience receptacles and the point where they exit from the apparatus.
 - Use with only the chart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus.
 - When a cart is used, caution when moving the cart/apparatus combination to avoid injury from a fall.
 - Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug having been damaged, liquid has been spilled or objects have fallen into the apparatus; the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

15. Refer to the instructions on the exterior rear panel for electrical and safety information before installing or operating the unit.

16. Protect the power cord from being walked on or pinched, particularly at plugs, convenience receptacles and the point where they exit from the apparatus.

17. Use with only the chart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus.

18. When a cart is used, caution when moving the cart/apparatus combination to avoid injury from a fall.

19. Refer to the instructions on the exterior rear panel for electrical and safety information before installing or operating the unit.

20. Protect the power cord from being walked on or pinched, particularly at plugs, convenience receptacles and the point where they exit from the apparatus.

21. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.

22. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades (including a fuse); that produce heat.

23. Do not defeat the safety purpose of the polarized or grounding-type plug. If the plug does not fit into your outlet, consult an electrician for replacement of the outlet.

24. Do not defeat the safety purpose of the polarized or grounding-type plug. If the plug does not fit into your outlet, consult an electrician for replacement of the outlet.

25. Do not defeat the safety purpose of the polarized or grounding-type plug. If the plug does not fit into your outlet, consult an electrician for replacement of the outlet.

26. Do not defeat the safety purpose of the polarized or grounding-type plug. If the plug does not fit into your outlet, consult an electrician for replacement of the outlet.

27. Do not defeat the safety purpose of the polarized or grounding-type plug. If the plug does not fit into your outlet, consult an electrician for replacement of the outlet.

28. Do not defeat the safety purpose of the polarized or grounding-type plug. If the plug does not fit into your outlet, consult an electrician for replacement of the outlet.

- The lightning flash with the arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of uninstalled "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock if touched.

- The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance instructions in the service literature relevant to this appliance.

- The symbol on this product indicates that it is **CLAS II** (double insulated) construction.

- WEEE SYMBOL**

- The crossed-out wheel bin is the European Union symbol for indicating separate collection for electrical and electronic equipment. This product contains electrical and electronic equipment which should be reused, recycled or disposed of according to the European Directive 2012/19/EU and its implementation regulations.

- Please return the unit to the dealer or distributor from whom you purchased this product for more information.

- This product is in conformity with Directive 2012/19/EU Restriction of Hazardous Substances in electrical and electronic equipment.

- C E MARK**

- This product complies with Low Voltage Directive (2014/35/EU) and Electromagnetic Compatibility (2014/30/EU) and Environment, Health & Safety of Consumer Equipment Directive (2009/125/EC) Directives when used and installed in accordance with this instruction manual. For continued compliance any Cambridge Audio accessories should be used with this product and service must be referred to qualified service personnel.

- UK UKCA MARK**

- Cambridge Audio complies with UK Regulatory Electrical Equipment (Safety) Regulations 2016, the Electromagnetic Compatibility Regulations 2016 and the Energy for Energy-Related Products Regulations 2016 when used and installed in accordance with this instruction manual. For continued compliance any Cambridge Audio accessories should be used with this product and service must be referred to qualified service personnel.

- EU & UKCA DECLARATION OF CONFORMITY**

- Hearley, Audio Partnership PLC declares that this product is in compliance with Directive 2014/53/EU & UK Radio Equipment Directive 2017/250/EU and that this product is in compliance with any Cambridge Audio accessories should be used with this product and service must be referred to qualified service personnel.

- BLUETOOTH® FREQUENCY INFORMATION**

- Bluetooth® Frequency: 2.402GHz ~ 2.48GHz, Max. Transmit Power: 10dbm.

- Wi-Fi RF frequency: 5.15-5.25MHz, Max. EIRP power: 20dbm.

- RCM (REGULATORY COMPLIANCE MARK)

- This product meets the Safety, EMC and Radio Communications requirements of the ERAc and ACMA.

- VENTILATION**

- Keep the rear of the unit well clear when in use. Do not stack multiple units on top of each other. Do not place in an enclosed area such as a room or in a cabinet without sufficient ventilation.

- If this happens, switch off immediately, disconnect from the mains supply and leave your equipment clear.

- Please ensure there is a minimum of 20cm between the unit and any other object on top of the unit.

- If this happens, switch off immediately, disconnect from the mains supply and leave your equipment clear.

- It is important that your equipment does not heat up during use. If this happens, switch off immediately, disconnect from the mains supply and leave your equipment clear.

- POSITIONING

- Choose the best position for your equipment. Avoid placing it in direct sunlight or close to a source of heat such as radiators, fires, etc. Do not place in a draughty position. Do not place it in a sealed area such as a cabinet. Do not place the unit on an unstable surface or shelf. The unit may fall, causing serious injury to a child or adult as well as serious damage to the product. Do not place on a table that is not stable.

- Turn off the equipment when not in use. If this happens, switch off immediately, disconnect from the mains supply and leave your equipment clear.

- POSITIONING

- The unit should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power-supply to your home, consult your product dealer or local power company.
